PREFACE

It gives me great pleasure to write the preface for Volume 11 of the New Zealand Arabian Horse Society Stud Book.

This volume covers all registrations from 2011, numbers 4941 to 5460.

As technology continues to develop and advances in breeding techniques are made we are seeing more breeders utilising stallions not only from around the country and from overseas, but also those stallions who are no longer with us. This can only enhance the gene pool and makes bloodlines previously out of reach both geographically and generationally available to all.

Worldwide we have witnessed a decline in registrations as the battle for the recreational dollar and the ease of horse ownership becomes more challenging. While New Zealand has also experienced this decrease we have historically seen fluctuations in the number of registrations. As we approach our 50 year anniversary the NZAHS Council is investing time and support on the development of a youth programme, the aim of which is to ignite the passion of these young people for the longevity of the breed at home.

1971 - Volume 1 has 70 horses – 1 year period
1978 - Volume 2 has 269 horses – 7 year period
1979 - Volume 3 has 392 horses – 1 year period
1982 - Volume 4 has 539 horses – 3 year period
1985 - Volume 5 has 503 horses – 3 year period
1990 - Volume 6 has 509 horses – 5 year period
1995 - Volume 7 has 520 horses – 5 year period
2002 - Volume 8 has 673 horses – 7 year period
2006 - Volume 9 has 636 horses – 4 year period
2011 - Volume 10 has 822 horses – 5 year period
2019 - Volume 11 has 520 horses – 8 year period

I wish to sincerely thank our Secretary, Fiona McLachlan, for her time and dedication in compiling Volume 11 and her service to the Society over the past 11 years.

Lee Cox
President
